

# **API LOW EMISSION PACKING SET 4337**

Braided from specially formulated expanded graphite, reinforced with a proprietary inconel wire matrix and impregnated with a high Sealability Compound and a Passive Corrosion Inhibitor

**Characteristics** 

- · Extrusion and blow out stability through ultrafine Inconel metal mesh reinforcement on each braided strand
- Non-hardening, excellent long term sealability
- · Minimal Volume loss at temperature
- · Coefficient of thermal expansion close to steel
- · Easy to install and easy to remove
- Average Emission of only 5 PPMv Methane according to API 622 3rd edition test

### **Operating range**

	$\mathbf{O}$	J	I.
p [bar]			500
t°C	-200	+300	
рН	0 - 14		

## **Main application**

This packing set was specifically formulated to minimize fugitive emissions and exceeds current emission regulations for valves in HPI & CPI Industries

Powerplants

General Industries

#### **Approvals**

- API 622 3<sup>rd</sup> edition Emission Test 260 °C / 41 bar
- API 607 7<sup>th</sup> edition Firesafe Test, ISO 10497 : 2010
- BAM approval for use in Oxygen at 60 °C / 20 bar
