Quality of service key to AESSEAL® contract

The rapid response of the AESSEAL® team to an urgent request for a replacement seal led to the award of a new contract from a South African chemical company.

The company had been let down by its existing supplier, and asked AESSEAL® if it could provide a full replacement seal within two weeks to meet the timetable for a planned plant shutdown.

AESSEAL® met the deadline, supplying a 60mm SCMS™ system on time to avoid any delay to plant start-up. The customer was impressed by the speed of response, and by the product's ease of installation.

'Impressed by the speed of the response'

Industry: Chemical
Product: SCMS™
Application: Vertical Ekato Agitator
Reference N.O: CS0179
