

Component Seal Application Enquiry Form

Complete the required fields below and return to:

UK Fax: +44 (0) 1332 366738
 Email: cse@aes seal.com

1. Customer

Required Section

End User: _____ Location: _____ Date: _____
 AES Representative: _____ Email: _____

2. Key Product Information

Required Section

Pump Make & Model: _____ Competitor/OEM Seal: _____
 Application: _____ Pump RPM: _____

3. Commercial Validation

Required Section

Initial & Annual QTY Req: _____ Target Sales Price: _____

4. Standard Product Variation Details

Required Section for Std+ and Special

Elastomer _____ Face Combination: _____
 Other Primary Materials: _____ MM Inches

5. Special Product Details

Required Section for Special

Complete all fields, if any are Not Applicable please input "N/A"

Ref.	Description	DIM
d1	(Shaft Ø):	
d2	(Stuffing Box Bore Ø):	
d3	(Seal OD Ø):	
l1	(Working Length):	
l2	(Stat Bore Depth):	
l3	(Pin Protrusion):	
l4	(Stat Length):	
l5	(Pin Location - Axial):	
d6	(Bore Step ID):	
d7	(Bore OD):	
d8	(Pin Ø & Quantity):	
d9	(Pin Ø PCD):	

Supporting Information:

6. Special Product Details

Required Section for Special

Provide Details of inserted image (click to insert)

Please numerically annotate the diagram and use the table below to define dimensions.

No.	Description	DIM	No.	Description	DIM
(1)			(6)		
(2)			(7)		
(3)			(8)		
(4)			(9)		
(5)			(10)		

Additional Notes

Disclaimer

The Enquiry Process

Standard Lead Times (from confirmation of project start) are as follows:

- Standard Plus Product (material and/ or any small dimensional changes) = 8-12 weeks
- Special Product - Line Extension (design modifications to Existing Product) = 12-15 weeks
- Special Product - New Range = 12-18 weeks

Based on the information provided, it will be decided by the Component Seal Product Development Team whether the project will be undertaken or retained for potential future development.

Please enquire as to the status of your request using the contact information provided.
